“A Toolbox for Neuropsychological Research and Practice”

First Call for Application

The FESN will organise its fourth Neuropsychology School being held at the FU Berlin from August 24th to 27th, 2020 (Local Organizers: Professor Michael Niedeggen and Ina Nordwald). The school is addressed to graduate students in their final years of PhD, or early post-docs, as well as clinicians at a comparable level of career. About 50 participants are invited from all partaking National Societies. FESN covers most organization expenses and students only need to pay for their own travel and nominal fee of 150 euro.

The programme is taught by experts in their field, and aimed at providing state-of-the-art knowledge and skills for students and postdocs working in all field of neuropsychology. Apart from an interesting programme, the school offers lots of opportunity to socialise and develop a European network of young neuropsychological researchers.

How to apply:

A link to the application form can be found at

<https://elomake.helsinki.fi/lomakkeet/100939/lomake.html>

Please note that the deadline for applications is January 15th, 2020.

In order to apply for endorsement and financial support, please contact your national society.
