FEDERATION OF THE
EUROPEAN SOCIETIES
OF NEUROPSYCHOLOGY

Student Liaison Committee

Who we are

We are excited to announce the creation of the first FESN Student Liaison Committee!

Who are we?

Student Liaison Committee (SLC) offered by FESN is a body in reliance on undergraduate, MSc, doctoral and post-doctoral students, as well as pre-doctoral interns, consisting of 6 members from several European countries encouraging and embracing the internationalisation of the scientific knowledge without borders.

What do we do?

There is always a need for a bridge between the students, trainees and the professionals which enables them to collaborate. By providing such bridge, students and trainees may benefit from an environment which supports their professional growth. Our goal is to support students who are interested in the world of neuropsychology, neuroscience and other related fields.

SLC focuses on reaching out to students from diverse backgrounds and introducing them to the FESN community. SLC believes that it is necessary to spread knowledge and strengthen communication channels in the scientific world to serve it the best.

What are our missions?

- To create a network among students, trainees and professionals.
- To keep the FESN apprised of the students'/trainees' needs and interests within the field of Neuropsychology.
- To provide resources and guidance for professional development both in the clinical and research settings.
- To foster student contributions to neuropsychological science.
- To empower students to advocate within the profession of neuropsychology.

Who we are

Why become a member?

By becoming a member, you will have the opportunity to:

- getting to know our team, other motivated psychology students closely and sharing your experiences.
- keeping yourself informed on the most up to date neuropsychological research.
- taking part in our annual conferences, lectures, webinars, Q&A sessions.
- learning about international opportunities for career development.

How to become a member?
