“A Toolbox for Neuropsychological Research and Practice”

First Call for Application

The FESN will organise its fifth Neuropsychology School to be held at the FU Berlin from 22 to 25 August 2022 (Local Organizers: Professor Michael Niedeggen and Ina Nordwald). The school is aimed at graduate students in their final years of PhD, or early post-docs, as well as clinicians at a comparable level of their career. About 60 participants are invited from all partaking National Societies. FESN covers most organization expenses and students only need to pay for their own travel and nominal fee of 150 euro.

The programme is taught by experts in their field, and aimed at providing state-of-the-art knowledge and skills for students and postdocs working in all field of neuropsychology. Apart from an interesting programme, the school offers lots of opportunity to socialise and develop a European network of young neuropsychological researchers.

How to apply:

A link to the application form can be found at

<https://elomake.helsinki.fi/lomakkeet/114223/lomake.html>

Please note that the deadline for applications is February, 15 2022.

In order to apply for endorsement and financial support, please contact your national society.

For further information on the application procedure, mail Angelika Thöne-Otto, Universitätsklinikum Leipzig, Germany: Angelika.Thoene-Otto2@medizin.uni-leipzig.de

Detailed information on the venue of the Summer School will soon be provided on the website of the local organizer (Michael Niedeggen, FU Berlin, Germany):

www.neuropsychologie.fu-berlin.de

Preliminary Programme: Summer School 2022

	Monday August 22	Tuesday August 23	Wednesday August 24	Thursday August 25
9.00-10.30		A primer on using non-invasive brain stimulation <i>Stephen Jackson (Nottingham)</i>	Univariate vs. multivariate lesion-deficit inference - the benefits of new analysis methods and their shortcomings <i>Thomas Hope (London)</i>	Big Data Analysis (Part 1) <i>Christopher Madan (Nottingham)</i>
10.30-11.00		Coffee Break	Coffee Break	Coffee Break
11.00-12.30	Registration	Clinical application of non-invasive brain stimulation <i>Katherine Dyke (Nottingham)</i>	How can neuropsychological research inform clinical practice? Neurocognitive underpinning of executive functions and their assessment <i>Lisa Cipolotti (London)</i>	Big Data Analysis (Part 2) <i>Christopher Madan (Nottingham)</i> Farewell
12.30-14.00	Coffee Break	Lunch	Lunch	
14.00-15.30	Better Methods in Neuropsychological Diagnostics <i>Edward de Haan (Amsterdam)</i> <i>Sergio Della Sala (Edinburgh)</i>	Subjective cognitive decline: A challenge for Neuropsychology <i>Michael Niedeggen (Berlin)</i>	Intervention research in Clinical Neuropsychology <i>Teppo Särkämö (Helsinki)</i>	
15.30-16.00	Coffee Break	Coffee Break	Coffee Break	
16.00-17.30	Spotlights (1) Short presentations of participants' research projects	Neurodevelopmental disorders: is it time for a transdiagnostic approach? <i>Stephen Jackson (Nottingham)</i>	Spotlights (2): Short presentations of participants' research projects
